

THE WORLD'S FIRST DIGITAL PUBLIC HEALTH PLATFORM

targeting the worst drug crisis in American history - The Opioid Epidemic

Preventum is the world's first digital public health platform designed to help governments and organizations deliver effective preventative healthcare campaigns. Preventum's first application in the US will focus on reducing opioid use and ultimately preventing chronic addiction.

DRUG OVERDOSE IS NOW THE LEADING CAUSE OF DEATH AMONG AMERICANS UNDER 50 YEARS

75% OF THESE DEATHS ARE LINKED TO OPIOIDS. 140
AMERICANS DIE EVERY DAY FROM OPIOID OVERDOSE
AND MISUSE

CAMPAIGNS

DOC (Digital Opioid Campaign) and DOC² (Digital Opioid Campaign for Doctors): Educational campaigns designed, developed, and deployed on the Preventum Digital Health Platform to reduce opioid misuse, abuse, overdose and diversion among prescription pain medication users, and to increase compliance reporting from doctors to reduce the number of opioids prescribed.
